

Silk

The floss silk futon is a futon that uses stretched cocoons as a Stuffing.

Made by Layers of floss silk carefully hand-stretched by craftsmen, the floss silk futon creates the air layer that increases heat retention.

Even if you sweat while sleeping, the floss silk has excellent moisture absorption and desorption properties, enabling you to rest comfortably in a relaxing bed environment.

The Floss Silk futon is flexible, and it fits the body. You can use it warmly without escaping heat from around the neck.

The floss silk is suited for those who are concerned about dust.

- Thread breakage is difficult
- Dust does not stand up easily
- Static electricity is less likely to occur

30 years Silk

Very carefully selected, "30 Years Silk" is composed of high-quality floss silk made by the hand of highly skilled craftsmen.

Each piece demands an art of delicate techniques that involves stretching the floss silk thinly and evenly, an enormous amount of time spent repeating this process hundreds of times.

With regular maintenance, you can use it for a long time.
